

DO'S AND DON'TS OF SPECTATING

1. Cars under competition conditions can lose control and leave the defined road at any time. Do not stand in any areas which are not authorised, or which are contrary to the advice of the organisers and officials/marshals.
2. Be prepared. Weather wise, bring hats, ground cover, sunscreen and protection in case of rain or cold weather. Food and drink outlets may be provided at the Public Viewpoint (refer to public instructions), but if not, ensure you have some of your own food and drinks available.
3. Park your car sensibly so that it will not obstruct emergency vehicles, competitors, service crews or other members of the public. In all cases obey parking instructions given by supervising officials. It is usually best to park your car facing the way out.
4. Do not try to emulate drivers. Remember that if you give cause for complaint, it will reflect badly on the event and the sport as a whole. Drive carefully both to and from Public Viewing Areas, and be ready to give way, if necessary, on narrow stretches of road.
5. Please do not take dogs or young children to Public Viewpoints. If you have to, make sure they are completely under your control and please make sure that animals and children do not get in the way of competing cars or mechanics or officials when they are working.
6. Do not light fires or smoke in the forests. Do not smoke near a car that is being serviced or refuelled.
7. At all times keep clear of controls, including from the timing marker to the control area. If control officials ask you to move, please help them by doing so - remember they have a job to do which can be difficult enough as it is. If you do want to see a control point in action, remember to stand well back from the control area.
8. Take your entire litter home with you - it is handy to have a bag or carton in your boot. Cans and paper do not help beautify our forests.
9. At service points do not crowd mechanics when they are working. They would not appreciate it.

Always spectate at designated event spectator points.

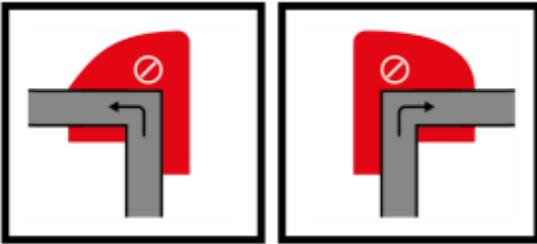

These points provide the best controlled vantage point placed in an area assessed for ease of access to the general public.

Ensure you obey the instructions of any Spectator Marshalls at a spectator point.

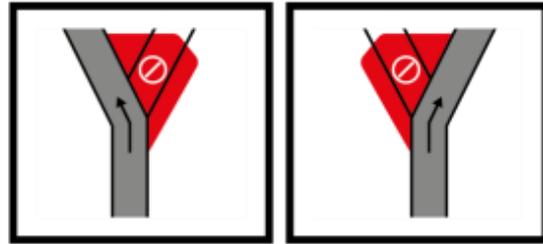

It is their role to keep you out of harm's way while you catch all the action!
